PA NEWS OBSERVES

Republicans of Mercer county who adopted a slogan of clean out the court house, seem to have succeeded pretty well on Tuesday. They cleaned out most everything but the cuspids, but maybe they did not need cleaning.

One of the surprises of election day was the large vote received by the fact that Mr. Holsinger's death occurred about a week before the election he received over seven thousand five hundred votes.

Thirteen may be an unlucky number for some persons, but not for Phillip Holom, a Butler county hunter. He was out with a hunting party this week when a gray fox came into view, and it was the thirteenth shot that day, fired by Holom, that brought the fox down. There seems to be a lot of unfounded superstition over that number, thirteen.

With the election over maybe we can now settle down to normal and enjoy the more practical things of life, such as husking corn, digging potatoes, and getting our leaky roofs fixed. Nearly everybody gets stirred up a little around election time, and after it's all over we heave a sigh of relief, and resume our regular habits of chewing the rag about something else.

While hunting a few days ago, in the vicinity of Enon Valley, George H. Ward, of Dewey avenue, shot a large red fox. Hunters are generally pleased to be able to do this, as these animals destroy many pheasants, rabbits, and other game.

During the past two or three years New Castle has had many streets improved with WPA labor, and there are in prospect the improvement of many more. In fact when we get through with our program, practically all of the principal streets of the city will be hard surfaced. Just what effect will this have on real estate values in the city? It is generally conceded that property on a paved street is more valuable than on a dirt street.

Republicans See Result Of Election In State As Forerunner Of '40 Victory

By RAYMOND WILCOVE

HARRISBURG, Nov. 9.—Pennsylvania took on a decidedly Republican presidential tinge today in the wake of impressive G.O.P. gains in Tuesday's election.

It appeared that the G.O.P. had lost none of its strength in the one-year interim since it swept the state with landslide proportions to wipe out a short four-year term of Democratic state control. If anything, it had gained.

Forerunner Of 1940
Both Gov. Arthur H. James and Republican State Chairman James

F. Torrance were quick to term the vote a forerunner of a 1940 Republican victory in Pennsylvania.

The Republican vote this year, smaller and more scattered than last year's with four appellate court races providing the only statewide contests, was nevertheless just as impressive in its way as was the 1938 landslide.

The majority rolled up by Judge Marion D. Patterson for the state supreme court, the best barometer in Tuesday's election of present Republican strength, was considerably larger than that given Gov. James in 1938. With practically all returns (Continued On Page Two)

Maritime Commission Will Favor Transfer Of Registry Of Ships

By LEON W. SILOSS

WASHINGTON, Nov. 9.—The maritime commission today was prepared to tell President Roosevelt that the future of the American merchant marine depends on transfer of part of U. S. private shipping to foreign registry to permit it to continue commerce with warring European nations.

As the president returned from Hyde Park, N. Y., the five-man commission, headed by Admiral Emory S. Land, marshalled facts and figures to show that more than one-third of this country's merchant fleet—exclusive of tankers—must be laid up unless traditional trade with belligerents is continued.

Operate Under Foreign Flags
The only manner in which it can be maintained, the commission will tell the executive, is to permit a half dozen domestic shipping lines, cut off from their regular trade routes by the neutrality act, to operate under foreign flags.

The commission will urge Mr. Roosevelt to second its approval "in principle" of the U. S. lines application to place eight of its vessels under Panamanian registry, after which they would be operated over their regular routes with foreign crews and officers and under the flag of Panama.

Because a matter of public is concerned, the commission will be guided by the president in making its final decision on the application, a decision expected shortly—it was learned.

In urging Mr. Roosevelt to second its approval "in principle" of U. S. line's application the commission was expected to produce statistics showing that 130 vessels totaling 860,000 tons, out of the dry cargo fleet of 326 ships totaling 2,150,000 tons have been driven off their trade routes by the neutrality act.

French Motorship Reaches New York On Maiden Voyage

New Ship Built By France May Take First Allied Cargo To Europe

NEW YORK, Nov. 9.—Successfully penetrating submarine-infested waters of the Atlantic, the French motorship "Indochinois" hove up over the horizon and moved into New York harbor on her maiden voyage today.

It was believed that the French craft would be one of the first of the allied vessels to take on a cargo of supplies and slip out to sea since President Roosevelt's proclamation barring American ships from combat zones.

The "Indochinois" was launched last July 4. It is a fair-sized freighter of 6,000 tons.

Hitler's Doctrine Of Rule Of Force Will Be Answered By Force Says Britain

CHAMBERLAIN GIVES BRITISH ATTITUDE

War In Europe At Present Time Is Sort Of Siege, Says Prime Minister

By CHARLES A. SMITH
International News Service Staff

LONDON, Nov. 9.—Adolf Hitler has sponsored the doctrine of force in Europe, and force will be Great Britain's reply, Prime Minister Neville Chamberlain told Nazi Germany and the world today.

In a speech read to the Lord Mayor's inaugural luncheon by Chancellor of the Exchequer Sir John Simon owing to the prime minister's indisposition from an attack of gout, Chamberlain held out little hope that the mediation offer of Queen Wilhelmina and King Leopold would be productive of success.

Force Only Answer
"To those who speak no language but force, force is the only answer," Chamberlain said in obvious reply to Hitler's speech at the Burgerbraukeller in Munich last night.

"Since we have been compelled to take up arms, we shall not lay them down until we are assured that Europe has been freed from the threats so long paralyzing the life of her peoples.

"Events have shown that the stiff-necked men to whom Germany handed over guidance of her destinies would be satisfied with nothing less than repetition of forcible attainment of their desires which they successfully tried before, and upon them must lie responsibility for the consequences."

Expressing appreciation of the "lofty motives" which prompted Queen Wilhelmina and King Leopold to make their offer of mediation, Chamberlain said:

"I confess I am not very hopeful of a satisfactory response from the German chancellor in view of past experience. Nevertheless, we do not want to continue the war a day longer than necessary if a satisfactory settlement can be obtained another way.

"In due course it will be the duty of the government to tender his majesty advice as to the nature of a reply, but beforehand it will naturally be necessary to consult the Dominions, our friends and Allies."

French And British Comment On Blast Reveals Skepticism

(International News Service)

LONDON, Nov. 9.—The Munich beer hall explosion from which Chancellor Hitler narrowly escaped with his life drew scathing comment from authoritative British quarters today.

Remarks regarding the blast ranged over a wide field of speculation. One source observed:

"The gentleman who presumably engineered the Reichstag fire probably knew how to engineer last night's affair."

Another theory was expressed in these words:

"The explosion was engineered by persons who wished to rid themselves of Hitler because of the privation to which he has subjected Germany."

At the same time an official spokesman sarcastically referred to Hitler's beer hall speech attacking Great Britain as a "trade of advice."

The attempt to assassinate Reichsfuehrer Adolf Hitler in the Munich beer cellar where he and a handful of followers launched their long battle for power in 1923 took its place today along with the Reichstag fire as one of the political mysteries of the times.

Already, the British are charging that the explosion was framed by the Nazi themselves and eight old Nazi warriors sacrificed to give an unenthusiastic Germany a rallying point for war.

The Nazis in turn are holding Great Britain directly responsible. Even now, the Nazi press is beginning to build up the accusation that Prime Minister Neville Chamberlain personally plotted the affair, just as these newspapers charged that Winston Churchill sank the *Athenia*.

Finds Own Home Ablaze As Fire Trucks Dash By

E. A. Mersheimer Residence On East Washington Street Badly Damaged

While E. A. Mersheimer of 918 East Washington street was standing on his front porch Wednesday evening at 8:15 o'clock watching the fire trucks go past his home in response to an alarm calling firemen to the home of William Hall, 905 East Hazel street, he was startled by the announcement made by his wife that their own home was ablaze.

Central fire station was called and an alarm was sounded from box 46, which called No. 3, No. 1 and No. 5 fire companies to the scene. A little later, E. A. Mersheimer returned from the Hazel street fire, arrived to help.

It was found that a blaze, which had gotten started in the cellar, had worked its way upward through the walls and underneath the floor. Damage of approximately \$1,000 resulted to the home and contents.

To add to the confusion, a false alarm was sounded from box 34, at the corner of Oak and Spruce streets, only a short distance from the scene.

Shrine Of Nazi Revolution Reduced To Shambles By Blast Last Night

BERLIN, Nov. 9.—The time-bomb which wrecked the Burgerbraukeller in Munich, shrine of the Nazi party revolution, was designed not only to assassinate Reichsfuehrer Adolf Hitler but to wipe out the entire ruling hierarchy of the Third Reich, it was stated on high authority today.

All of the prominent Nazi leaders who a few moments before had heard Hitler threaten five years of merciless war on England escaped by a bare twelve minutes when "one blinding flash and then a stunning concussion" reduced the famous beer hall to a shambles.

Great Britain was held directly responsible by the German press and officialdom for the outrage which cost the lives of seven "old veterans of the party" and injured some 60 others.

WASHINGTON, Nov. 9.—A renewed appeal to President Roosevelt to initiate negotiations for an armistice in the European war was voiced by leading senators today following the Dutch-Belgian offer of mediation.

The peace group, which includes Senators Wheeler (D) Montana, Thomas (D) Utah, and Johnson (D) Colorado, were of the opinion that presidential support of the Dutch-Belgian proposals might lead to actual negotiations.

Their proposal followed closely on the heels of statements by Senator Borah (R) Idaho, and other leaders in foreign affairs, to the effect that the United States should do all in its power to bring peace to Europe.

All the senators, regardless of political party, expressed the hope that the president will take advantage of every valid opportunity to put this nation on record in support of any proposals that might lead to an end of the war.

REPUBLICANS SEE RESULT OF ELECTION IN STATE AS VICTORY

(Continued From Page One)

in, Judge Patterson's plurality approached 329,000 compared to the 279,148 plurality James received last year over his Democratic opponent. The Republican candidates for the superior court also showed imposing pluralities.

Whether this was an indication that Republican strength had grown or, on the other hand, that more Democrats had stayed at home this year than Republicans, was a question for the politicians to debate among themselves.

Headed For G.O.P.

However, it appeared to neutral political observers that Pennsylvania's rich prize of 36 electoral votes, second largest bloc in the nation, appeared headed for the Republican column next year unless Pennsylvania voters pull another "unpredictable" as they did in 1934 when the state went Democratic despite an overwhelming Republican majority in registration.

To Democrats it appeared now, more so than ever before, that unless startling changes occur to alter the political picture within the next year, their one great hope of carrying Pennsylvania in 1940 lay in a third term for President Roosevelt.

In addition to electing the complete G.O.P. slate for the appellate courts—one office on the supreme court and three on the superior courts—the Republicans scored impressively in Philadelphia, the state's greatest voting center.

Strong In Philadelphia

In Philadelphia, despite the sternest Democratic opposition in more than half a century, the Republican machine showed its strength by electing a mayor and common council. Here again, in Philadelphia as in the state-wide returns, Judge Patterson obtained a larger plurality over his Democratic opponent, Herbert F. Goodrich, than Governor James did over Charles Alvin Jones in last year's general election. Patterson's plurality totaled 27,926; James' plurality last year totaled 12,488.

The best Democratic showing in Tuesday's election appeared to be in Pittsburgh where they apparently held their strength, electing for the first time a completely Democratic city council, but apparently failing to increase their strength in Allegheny county.

The Democrats also scored several notable victories in county judgeship races, notably in Northampton, Schuylkill, Perry, Juniata, York and Carbon, also in several mayoralty races, notably in Johnstown, Sharon and Reading. They also held their strength in Lackawanna county, but lost Scranton.

Governor James, asked whether he thought Tuesday's balloting would enhance Republican chances for 1940, replied: "Unmistakably."

The governor said he regarded the vote as "clearly indicating that the people were definitely opposed to the type of governmental policy in Pennsylvania during the past four years, namely, the former Democratic Earle administration."

"No other deduction" was possible, said the governor, adding that "our Democratic friends can't take much comfort from it."

Gum-shoes will not prevent colds, pneumonia and other ailments, but wearing them when rain, snow and slush covers the ground will indicate common-sense and a desire to live.

NAZI LEADERS ESCAPE BLAST OF TIME BOMB

(Continued From Page One)

Berlin, Nov. 9.—No prominent Nazis were killed disposed of a Reuters report from Paris that Rudolf Hess, deputy Nazi party leader, was "among the victims" of the explosion.

Upon Hitler's return to Berlin, he was met at the Anhalter Railway station by Field Marshal Hermann Wilhelm Goering, who was prevented by pressing duties from attending the Munich celebration.

Calls Conference

The fuhrer immediately summoned a conference of his closest advisers at the chancellery, including Goering, Foreign Minister Joachim Von Ribbentrop, Gen. Wilhelm Kietel, chief of staff, propaganda minister Goebbels and a number of other key men.

At noon Hitler received the Italian ambassador.

The leaders apparently avoided the explosion because they left for the Munich railway station ahead of the original schedule after Hitler made the shortest speech yet given in one of the annual beer hall celebrations.

The explosion took place at 9:21 p. m.—the exact moment that the train carrying the fuhrer back to Berlin left the Munich station.

Authorities revealed that the high Nazi officials who accompanied him to the celebration—Rudolf Hess, propaganda minister Joseph Goebbels, labor leader Robert Ley, Nazi party cultural supervisor Alfred Rosenberg and secret police chief Heinrich Himmler—were not injured.

The explosion wrecked the ceiling of the famous beer hall and today the spot was covered with a heap of debris nine feet high due to collapse of a central column which caused the entire roof to cave in.

"While affording America the means of maintaining her neutrality, it reopens for the Allies the doors to the greatest storehouse of supplies in the world," he said.

Commenting on this "strange of wars," the prime minister declared: "It is no war, but rather a sort of siege."

"We do not know how long this phase will last, or whether at any moment it may not be changed into violent conflict, but we can see at any rate that the position of the Allies as the weeks have passed has strengthened instead of deteriorated."

The Parent Problem

By Garry C. Myers, Ph. D.

LONG DIVISION REAL PROBLEM
LONG DIVISION is about the hardest subject in arithmetic to learn and teach. If your child has trouble with it, you can help him at home.

First, be sure he knows the simple multiplication facts up to and including the nines. Write down for him, all mixed up, the facts which he has not mastered, such as 9 times 7 are 63. Have him say them over and over to himself as he looks at them until he knows them. If there are many he is not very sure about, let him attack, on one evening, only about seven or eight of them.

Induce him to study them with great care so as not to make a single error. Urge him never to leave one fact, like 6 times 8 equal 48, until he is sure he knows it. Make him feel it no disgrace to look at the completed facts that he does not know, but that the only thing to avoid is a wrong association. Make accuracy the goal.

Avoid speed suggestions. He will want to hurry and guess. Speed has been his curse. Make him feel, by your voice and gestures, even by the way you breathe, that he has ample time. When he makes an error, don't get angry; don't yell at him or even look disturbed. Very calmly ask him to repeat the fact correctly as he looks at it on the page before him. The moment you find yourself one bit annoyed, walk away and don't return until you are again a perfect master of yourself.

Subtraction Facts
Next, be sure he knows the 100 simple subtraction facts. Go him to study carefully those he does not know, saying them over and over to himself, such as 13 minus 4 equal 9, until he has memorized them. If it takes a week or two for such achievements, very well. It is absurd to have him devote his time to long division if he doesn't know perfectly the simple, basic multiplication and subtraction facts. Go one step further until you are sure he has mastered hard subtraction, so that he finds no difficulty in subtracting 2019 from 3017, for example, or 635 from 832.

In case you discover the child cannot subtract well, don't scold him or betray feeling in the matter. Don't be guilty of delivering a speech upon the awful way he has been taught or on your surprise he had not learned these things long ago. Just proceed as calmly as if you were putting on your hat or overcoat, or telling him about an interesting experience. Be very, very patient. It may take five or ten evenings to prepare this child for long divisions.

If you practice him on any problem of long division in the mean time, use a short and easy one. Slowly do several of them first, leaving all the work for him to examine again whenever he needs help. By easy I mean easy, as 3 divided by 4, 76 divided by 3, 90 divided by 6. With problems so simple he can get the steps without difficulty. And do it by long division, not short division. You gradually can lead him up to harder forms like 57 divided by 21.

Make sure he always finishes up with success so that he leaves the work with a hopeful, happy attitude.

The World AND THE Mud Puddles

COMMUNISTS ARE BUSY.

Every day the investigating Congressional Committee, investigating un-American activities in the United States, uncovers new and startling evidence of radical foreign agitators in this country. The objective of these operators is to undermine American loyalty and to plunge discontented Americans to some other form of government which promises social security.

The latest and most astounding example of this Communist plan is the deal that Stalin made with Hitler, in which each agreed not to fight each other, whereupon the Red Army of Russia began absorbing new lands among the Baltic States, including two-fifths of Poland itself which Hitler had conquered with the blood of two hundred thousand soldiers. It seems that the plan of Russia is to remain out of World Wars itself and then when the countries are weakened by war, to step in.

In these United States our insides are being eaten out by the termites of Communism, and as a Nation we are doing little about it. Organized Communism has become so strong in this country that our eminent politicians and statesmen who love their jobs are afraid to take a stand against it. We have the spectacle of an organization which is known as the "Workers' Alliance," which is a union of men and women on religion and it is exercising a dominant influence in Washington.

I don't wish to abuse or be unsympathetic with deserving men and women who by no fault of their own have reached the end of their resources and are compelled to accept help or suffer. I am, however, concerned over the force and strength of the Workers' Alliance, a million strong, under Communist control, who as organized beggars are dictating to the government, their benefactor, how much relief shall be given them.

Our greatest danger in America today is not what the World War has in store for us. We can stay out of that if we desire. But we are being rotted, undermined, weakened and demoralized by the inroads of Communist philosophy, which first destroys and then takes command. It is the philosophy of dishonesty, immorality, atheism and deceit, and we don't seem to realize that this country is being rapidly asphyxiated and suffocated with the stuff.

A large house near me used to give me the creeps whenever I entered the living room. Its dark Flemish oak paneling, its browned wall paper above, its rug with a dark red background, its bronze clock on the black marble mantel, its bronze statues scattered about on stands and pedestals, its oil paintings in heavy frames always made me feel as if I were in a funeral parlour. This morning I called on the new owner and stood spell-bound by the transition from gloom to cheer. The walls are paneled from ceiling to chair-rail and under a light ivory whose tones cover also the woodwork and mantelpiece. There is now an oriental rug with a soft red rose and soft blue tone, the latter taken up by the window draperies.

Readers' Questions Answered
Dear Miss Markel: When the church has two main aisles, which should be used by the wedding party?—Bride.

Answer: You may disregard one of the aisles and use the other for both processional and the recessional, seating the guests as usual (the bride's friends and relatives on the left side; the bridegroom's on the right side). You may, instead, if you prefer, use the right aisle for the processional and the left one for the recessional. Only one aisle is customarily used, if the wedding is very small. But if the wedding is a large one, both aisles are then usually in use. In the latter case, the bride's parents should occupy the right side of the first middle pew and the groom's parents the left side of the same pew.

Miss Markel will promptly mail personal answers to questions from any reader enclosing self-addressed three-cent stamped envelope.

Shipstead Says Farmer Unaided
Reciprocal Training Ineffective
Minnesotan Speaking For State

By CHARLES F. STEWART
Central Press Columnist

WASHINGTON, Nov. 9.—"When," says Senator Henrik Shipstead of Minnesota, "congress passed our present law, authorizing the state department to conclude reciprocal trading bargains with foreign countries, it was representative of these dickers would enable us to swap off our various surpluses for other stuff that we, in the United States, haven't enough of, or maybe not any. Now, how's the system working out in practice?"

The senator was referring especially to the scheme's application to agriculture, Minnesota being notably a farm state. He was referring super-especially to dairy products, since they're particularly conspicuous in his commonwealth's output. He also was dwelling with much emphasis upon our pending deal with Argentina.

"Because," he said, "Argentina is almost exclusively an agricultural and pastoral realm, with crops and animals and dairy edibles practically identical with our own."

"What's bound to follow if we encourage these alien industries to come in and compete with us in our home markets?"

It isn't proposed to admit Argentine cattle. Its well established, though denied by the Argentines, that they are diseased, and there's a sanitary embargo against them. But the "critters" are shipped in from Canada. They're redundant on this side of the border already, asserts Senator Shipstead.

For two or three generations," he points out, "the American farmer has taken it for granted that the fertility of his land was eternal. He's beginning to find out that he was mistaken—that the fertility which he took out in the form of grain must be restored in the form of humus, phosphate, potassium and nitrates. The manure from his barns serves this purpose. Industry and you destroy the fertility of our fields."

The senator seems a bit jealous of the development of Dixie's dairying. Government policy there, as well as in the northland, has been to take as many acres as possible out of cotton production, thereby stimulating milk and its by-products. He remarks that such costs are lower in the south than farther north, giving the southern an advantage.

Not that he wants to discriminate internally, but he does draw the line on international competition. He indorses Pan-American neighborliness, but only in reasonable moderation.

Overseas Purchases
Moreover, he suggests, "We've reaped our embargo law."

"The Allies will want huge quantities of our supplies."

"That speedily will boost prices of our manufactured goods. But the Allies already are pretty well stocked up with our farm and dairy junk. Consequently our manufacturers' and their employees' prices and wages will skyrocket."

He worried! Not as some folks do By sitting down the whole day through. And whimpering in bleak despair About the ills he had to bear. But in a wholesome, vigorous way By working, what he owed, to pay.

The Great Game Of Politics

By FRANK R. KENT
Copyright, 1939.
by The Baltimore Sun

Politics Will Be Back

WASHINGTON, Nov. 9.

THE regular session of Congress now less than two months off, will be far different from the special session recently ended. In the latter, politics was adjourned while the neutrality fight was on; in the next session, politics will dominate from the start.

THAT is inevitable in any session preceding a Presidential campaign. It is forced by the fact that the Presidential primaries, beginning in March, run through until June and that the session itself runs right up to the dates of the nominating conventions. In the coming session the political flavor will be greatly heightened. There are several reasons. One is because it is the end of the sitting President's second term, which opens the field for a convention struggle in the majority party. Recognition that a President is not only entitled to one renomination but can secure it no matter how great the party discontent is so general that the second nomination is always conceded. The reverse is true when he is finishing a second term. Then, no matter how great the President's popularity, it is traditional that he retire and it is quite certain that any effort for a third nomination would meet determined resistance.

THAT is why despite third-term sentiment for Mr. Roosevelt similar to that which existed for Mr. Coolidge in 1928 and for other two-term Presidents who preceded Coolidge, there are at the moment various Democratic figures looming up and a number of states which are preparing to put forward favorite sons. Some of these are making active campaigns. Some are simply "receptive." In the Senate itself there is Vice President Garner, Senator Wheeler of Montana, Senator Clark of Missouri, and Senator Tydings of Maryland. Outside the Senate there are Secretary Hull, Mr. Farley, Mr. McNutt and Supreme Court Justice William O. Douglas, who, to the mortification of his colleagues, is being mentioned both for the Presidential and Vice Presidential nominations. Four years ago no name was spoken of except that of Mr. Roosevelt; this time the woods are full of candidates and the session will be given over to political jockeying.

THIS is as true of the Republicans as of the Democrats. For example, in the Senate, the Republicans have three avowed candidates—Taft of Ohio, Vandenberg of Michigan and Bridges of New Hampshire. Outside the Senate District Attorney Dewey is the outstanding Republican aspirant. Blanketed by the outbreak of war and the embargo debate, his friends expect him to forge again to the front. Clearly, the politics of the coming session will be more intense than usual. It is true that the Roosevelt jobholders, the "inner circle" advisers and some of his relatives who hate the idea of relinquishing the power which their White House connection confers, will keep the third-term movement alive so long as they can.

AS FAST AS one thing happens to flatten them out something comes along to restore their optimism. Last week their "western conference" was scuttled by Labor Leader Lewis, but this week the Gallup poll declares 83 per cent of the Democrats want Mr. Roosevelt elected. Lewis rebuffed. But, neither the Lewis blast nor the Gallup poll affects the fundamentals or changes the conviction of the more discerning that there will be no third nomination; that at some time of his own choosing Mr. Roosevelt will irrevocably take himself out of the race. It is, of course, easy to understand that in addition to the satisfaction of making it clear that his retirement is voluntary and not compulsory, he wants to insure two things—one, that the platform indorse his administration and promise continuation of New Deal policies, second, that the nominee be someone acceptable to him.

THOSE whose judgment is best are completely convinced that Mr. Roosevelt's mind is set upon achieving those two things, that he is entirely clearheaded about the unfeasibility of a third term and will end the movement when he thinks the time ripe. As to the Gallup poll, three things are being said. One is that there is an increasing skepticism as to the ability of this or any poll week after week to accurately assay the shift in sentiment among 130,000,000 people on every sort of question. A second is that the 83 per cent reported is not in accord with the check of the best political judges in the more important states. A third is that even if the 83 per cent were correct, it still leaves 17 per cent of the Democrats opposed to a third term. Taking the Roosevelt-Landon vote as the yardstick that would be sufficient defeat to insure defeat in the pivotal states such as New York, Ohio, Illinois, Connecticut, New Jersey and Massachusetts.

Saturnalian Banquet Planned By School Club

At a regular meeting of Senatus Romanus, honorary Latin club at the senior high school, held in the music room of the senior high school on Tuesday evening, with Consul Prima Helene Edgar, presiding, important announcements were made, some routine business was transacted, and the members enjoyed a delightful entertainment.

The club has had under consideration for some time the project of holding a Saturnalian banquet as the climax of its fall activities. Announcement has now been made that this will take place the evening of December 14. Costumes, menu and entertainment will attempt to follow old Roman manners, reviving the ancient festivities held about the middle of December in honor of the god, Saturn. Such a banquet was held with great success by the Latin students of senior high school in 1936 and it is the desire of the present school generation to repeat the fun. Committees have been appointed and have been at work in library research and conferences for some time and the club was informed on Tuesday evening of the committee members.

The organization of the committee for the Saturnalian banquet follows: publicity, Marian Hughes, William Nicholson and Russell Minick; art, William Nicholson, Mary Barrett, Doris Ann Bennett, with Gladys Gibson as an honorary member from the Vergil class; invitations and reservations, Hazel Ann Mark, Jean Cameron and Eleanor Eklies; menu, Evelyn Reno, Joan Simpson, Edna Flannery and Alice Di Carlo; ceremonies, Mary Jane McGinty and Oliver Pisor; entertainment, Catherine Lynch, Harold Adams, Howard Lyon, Jean Dufford and Roy McClendon; typing and mimeograph work, Catherine Flynn, Kathryn Wilcox, Jane Wells, Louis Moneta, Robert Richards and Mar-

tina John; costumes, Mary Lou Fennell, Carolyn Cosel, Earl Carr, Gerhard Schlumberger, Shirley Potter, Annette Zarych, Stanley Yakowicz and Barbara Mathews; decorations, Gladys Reed, Leo Cohen and Albert Marrangoni. Russell Minick and Nancy McKee are co-chairmen for the considerable executive work of this important social event of the approaching holiday festivities.

During the routine business of the club, William Nicholson received his Junior Classical League pin for excellence in the Cicero course completed last June. This was a delayed presentation and carried with it a summa cum laude citation. Lena Mae McConnell was elected a "Conscript" member of the local club.

The feature of the evening, which had attracted a record attendance of the members in spite of inclement weather, was a showing of European travel films by Mrs. James D. Crawford, who accompanied her moving picture scenes with delightful comments and personal experiences.

Oil Exports To Foreign Nations Should Be Stopped

Rear Admiral H. A. Stuart Says
"Imports Not Exports
Should Be Increased"

(International News Service)
WASHINGTON, Nov. 9.—American oil exports to foreign countries should be stopped and imports increased in the interest of conservation, Rear Admiral H. A. Stuart, director of naval oil reserves, told a house interstate commerce subcommittee investigating the oil industry Wednesday.

He said that the European war probably will increase the demand for American oil abroad. Under questioning, however, he declined to suggest revision of the neutrality law by imposing an embargo on oil exports to warring nations.

Deeply Concerned
The navy, Admiral Stuart said, is deeply concerned over the oil situation. Its present reserves, he asserted, would meet navy-peace time needs for less than 20 years.

In the event of war, the admiral said, the navy's needs for oil would increase 500 to 600 percent. The oil industry, he admitted, could meet present needs.

It is in the future rather than the present that we are interested," he said.

Urging conservation of California oil because of the navy's needs, he expressed disappointment over defeat of an oil conservation law in California in yesterday's election.

agriculture's figures will stay stationary, for quite awhile anyway." Of course, this will sting agriculture and dairying.

"Much," remarks Senator Shipstead, "has been made of the fact that the farm-mortgage debt has been reduced by \$2,400,000,000. But how? It's been reduced by foreclosures on farm mortgages. When a farm mortgage is foreclosed and the farmer is taken from the land, the debt is wiped out. That's how farm-mortgage indebtedness has been reduced."

According to Senator Shipstead our number of independent farmers has been cut by about 30 percent since the beginning of the last war. Today 30 percent, who used to be independent, are tenants.

It's interesting.

"Doc" Shipstead, who used to be an ordinary dentist in Minneapolis, is a foremost authority.

At this writing he's nearly an independent party in congress.

A GREAT STORY BECOMES A GREAT PICTURE!

This famous Lloyd C. Douglas Best-Seller... even more popular than "White Banners" and "Green Light"... becomes a magnificent motion picture with star performances that will live long in picture history!

Tomorrow

In a remote Chinese village the great man of science uses all his genius to bring this man back to life in one final effort to prove science greater than love. And yet, the sound of a girl's voice, the touch of her lips, the all-powerful strength of her love, are more potent than all the wealth of this master surgeon's genius

A scene of such emotional intensity as the screen has seldom known... and yet, only one of a hundred heart-thrilling moments in this grandest of all the dramatic triumphs of Producer-Director Frank Borzage, creator of "Seventh Heaven" and "A Farewell to Arms."

Airplane Pilots Given Warning By Secretary Hull

Learn That U. S. Pilots Are Approached To Fly Planes Over Atlantic To Britain

HEAVY FINE AND SENTENCE ATTACHED

(International News Service) WASHINGTON, Nov. 9.—Secretary of State Cordell Hull today announced that any American citizen attempting to fly airplanes from American territory into the European combat zones for delivery to belligerents would, of course, be subject to heavy fines under the new cash-and-carry neutrality act.

He pointed out that this penalty was \$10,000 fine and two years in prison for any "passengers" violating the combat zone provisions of the act.

Second, said the secretary, in his opinion no American citizen would even think of violating the neutrality act.

Could Prosecute

The announcement was made following news dispatches reporting that some American pilots in New York had been offered \$40,000 a trip for flying American-made planes to Great Britain and France.

Government legal experts pointed out that the department of justice would be charged with the duty of

On Court House Hill

REAL ESTATE TRANSFERS

Andrew Kahner to Frank J. Quigley, Neshannock township, \$1.

William Reynolds of Neshannock township reported to Sheriff M. M. Ingham that he had found a stripped Dodge car on the roadside near his home on the Graeceland road. The tires were missing and parts of the car had been taken. Sheriff Ingham is investigating.

History was in the making at the court house on election night when judges brought ballot boxes in along with their returns. This was the first time in the history of the county that the ballot boxes have been returned to the court house. It was in accordance with a resolution passed by the county commissioners, who have found that it is quite expensive to have ballot boxes brought in when they are needed in making the official count. The boxes were piled up along one side of the corridor of the court house, until a more convenient place is found. Heretofore ballot boxes have been stored with the various aldermen and justices of the peace who received rental. The county will save the rent and also the work of going around to collect ballots from the boxes before each election.

The last election returns to come in at the court house on Wednesday morning were those from Wampum borough. It was 11 o'clock when they arrived. Members of the board explained that there is part of a school district taken out of an adjoining township that has to be counted in with the Wampum vote, and that this was responsible for the delay in getting the returns to the court house.

The Department of Public Assistance has filed a suit at the prothonotary's office against James Fletcher, administrator in the estate of Frank H. McConnell in which \$292 is claimed from the estate. It is alleged that Mr. McConnell died on November 6, 1938, leaving property valued at approximately \$1800. Under the act of January 24th, 1937, he had drawn the amount claimed from the Public Assistance fund, and the suit is to recover that amount from the estate under what is known as the "Support Law."

Will of the late Frank D. Lowry has been probated at the office of Register and Recorder, Orville Potter, but no letters have been issued.

A Three Days' Cough is Your Danger Signal

Creomulsion relieves promptly because it goes right to the seat of the trouble to loosen germ laden phlegm, increase secretion and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding that you are to like the way it quickly allays the cough or you are to have your money back.

CREOMULSION for Coughs, Chest Colds, Bronchitis

Certified copy of letters of administration, issued in Peoria, Ill., to Lucille L. Cashin in the estate of M. Henebery Cashin, who died in that city, have been filed at the register and recorder's office.

Application of David J. Marshall for a private detective license, and permission to open a private detective agency, was approved by Judge Thomas W. Dickey. The application had been made some time ago and due publication was made as required by law. No objections were made when the case came up for final hearing. Mr. Marshall is the son of a former County Detective, S. B. Marshall and has had considerable experience in the detective business, having assisted his father both when he was county detective and when he operated a private agency.

Celia C. Saylor, and C. H. Saylor, her husband, of Youngstown, O., have filed a suit at the prothonotary's office against Norman and Mildred Alborn of New Castle, R. D. 5, to recover damages for an automobile accident, which happened in Tarentum, Pa. In the statement of claim the plaintiffs allege that they had stopped for a light at the intersection of Ross and Seventh avenues in Tarentum, and that the Alborn car crashed into their car from the rear, painfully injuring Mrs. Saylor. The accident happened in November 1938.

PENNA. LADY SAYS HER NERVES KEPT HER AWAKE ALL NIGHT

Tells how Vendol relieved constipation and now enjoys first real rest in months; describes other benefits.

"My friends often ask what I have been doing to cause such an improvement in my looks, and it gives me a lot of pleasure to tell about taking Vendol," says Mrs. Royal Hadsell, living on route 3, Sagsertown, Penna. (near Meadville).

"Constipation was my trouble and it caused so many other troubles they were beginning to show on me. One of the main things this constipation did was to make me so nervous that it kept me awake many nights. I'd roll and toss till finally near morning I'd drop off into a light, dreamy sleep which did not rest me well.

"Another result of constipation was that my food disagreed with me, formed gas, which often crowded my heart till it caused palpitation, and shortness of breath, which not only was uncomfortable but also scared me. I'd belch up a hot, sour liquid that irritated my throat, and sometimes it contained bits of food.

Student From Rome Is Visiting In City

Young Priest Is Guest Of Uncle, Rev. Elias Nader Of Howard Way

Much has happened "over there" since Rev. Fr. Maron Abi Nader, young Syrian priest of the Roman Catholic church departed from Rome, Italy, for a vacation in America. He is the guest now of his uncle, Rev. Fr. Elias G. Nader, of 1210 Howard way, pastor of St. John the Baptist Syrian Maronite church, but has visited other relatives and many states of the Union since arriving in this country for the first time, on the 20th of July.

The young priest, who had been engaged in special studies at Rome, left Europe when an ocean trip was considered a pleasure, but will return when it is considered an ordeal. But he has enjoyed America, the World's Fair, the hospitality of the American people, and doesn't worry too much about the trip home. He is a refreshing personality, courteous, friendly, with a merry laugh, and has won many friends during his stay here. Brushing off his apologies, he speaks English remarkably well. He studied the language in his spare time in Europe, but laughingly remarks that he never prepared for the speed in which it is spoken. Nobody slows down at the commas, nor stops at the periods.

Famous Chicago Sportsman Slain In Gangster Style

Edward J. O'Hare Shot To Death As He Drives Car In Street

(International News Service)
CHICAGO, Nov. 9.—The almost impossible task of tracing every movement made by Edward J. O'Hare during his last hour of life faced authorities today as they searched for clues to the brazen gangster-style slaying of the famous sportsman.

O'Hare, wealthy president of Sportsman's Park track in suburban Cicero, was killed yesterday afternoon as his car sped along Ogden avenue, a usually heavily traveled thoroughfare. He was struck at least six times in the jaw, cheek and head by two shotgun volleys and was dead when the first person reached his side. A 32-caliber revolver, which had not been fired, was on the seat next to the body.

The killers escaped. Several persons told police they had seen three cars close to O'Hare's coupe. No one was able to say, however, how many persons were in the other cars, nor just how the assassination was carried out. One man told detectives he thought he had seen a man leap from O'Hare's machine just before the shooting, but because of the great confusion he could not be sure of it.

Investigators said they believed O'Hare had been slain following an argument, and that the killers had acted in sudden rage.

It was this fact that gave importance to O'Hare's movements in his final hour.

Three Robberies Solved By Police

Chief Of Police Says Grove City Youth Has Admitted Perpetrating Thefts

Three robberies here were solved, by an alleged admission by Dean Clark, Grove City, R. D. 1, to Police Chief Ralph A. Criswell Tuesday, the chief stated today. Clark was arrested by City Chief of Detectives Ray Showalter and State Motor Policeman George Mazza at Grove City, R. D. 1, Tuesday. Clark is in the county jail.

According to the reported confession, Clark robbed the Leonardo Shoe Repair shop, November 1; John Kmiotek Shoe Repair shop, November 3, and stole the auto of Evelyn Franklin, 704 North Cedar street, from a downtown parking lot November 4. It was abandoned in Grove City.

Clark assertedly told the chief he entered the shoe shops, told proprietors they were wanted on a telephone in a nearby business place and while the proprietors were out robbed the cash registers. He obtained about \$20.00, from both places, he confessed, Criswell stated.

He was arrested on warrants issued by police here and was arraigned before Alderman James C. Brier then committed to jail in default of bail. The time for a hearing has not been set.

News Briefs From City Hall

Local police have been given a description of a considerable amount of jewelry reportedly stolen from a Beaver Falls store, November 3.

Children enroute from school were reported to police to have broken a street light yesterday at Edison avenue and North Jefferson street.

Deputy Sheriff A. H. Vespa, Peoria, Ill., lodged Theodore Springer, of that vicinity in jail here last night. Springer was apprehended in New York and Vespa is returning him to Peoria to answer a charge of forgery.

Police here have been asked by Winchester, Va., authorities, to watch for the possible appearance of one Harry William Orr, 22, colored, wanted for the alleged murder of a man, woman, and wounding of another person.

State Motor police last night advised city police of a hold-up of a gasoline service station at Brookway, by a young man and a young girl. They got \$25.00. They were traveling in an auto the teletype stated.

Nazi Sabotage Plot Uncovered In South Africa

(International News Service)
LONDON, Nov. 9.—Discovery of a Nazi plot to sabotage the industry of South Africa and stage a subversive movement against the government itself was announced in an authoritative broadcast from Cape Town today.

The South African government has unearthed "incontrovertible evidence," the broadcast said, of a plot to arm blackshirt troops and wreck vital points of African industry.

The government is in possession of authentic lists of members of the subversive movement, and links have been found with the German minister's staff.

Agents of the subversive organization operated in the principal cities of the union, the broadcast said, but the plot itself was frustrated by outbreak of war.

Dr. Dafoe's Column On The Quintuplets And The Care Of Your Children

(Copyright 1939, King Features Syndicate, Inc.)

CALL A DOCTOR WHEN BABY INSERTS SOMETHING IN HIS EAR

It isn't only from babies' stomachs that we doctors are called to remove foreign bodies. As children grow older, they turn from thrusting objects into their mouths to tucking them elsewhere in the body. For instance, it is a common thing for a child of from two to four years to thrust something like a stone, a pea or a bead into its nose. Usually what is shoved into the nose is a hard object, and the mother is usually informed right smartly that something is wrong because the child will be acutely uncomfortable as attempts to dislodge the object only push it farther and farther into the nose.

When the mother finds this situation, she should encourage the child to see if he cannot blow the object out. But this must be done carefully for if he blows too hard or keeps at it too long, he may injure his ear. However, if the mother tries to get the child to dislodge

the object in this way and it doesn't work, she must not under any circumstances go after it herself. The child should be taken to a doctor at once, for he will have instruments with which he can remove the offending object without fear of injury to the tissue.

Usually one painful experience like this will be enough to teach a child a lesson. But I have had children in my care who did the same thing again and again. The big trouble I found was that parents wouldn't bring the child to me until all the family had taken a crack at removing it. The object had been in the nose for hours, irritation had set in and removing the object then was no cinch.

The ear is another spot where children sometimes put foreign bodies. will say, however, that this is usually accidental. In most cases you find that the object was placed there by a playmate.

When this happens it is even more serious than when the nose is involved. It must be treated with extra care because a scant three-quarters of an inch down that tube in the ear is the delicate eardrum. This can be injured very easily by a foreign body so the mother mustn't under any circumstances try to insert anything into the ear to remove the object. This is a job for a doctor.

If a doctor isn't immediately

available, it is sometimes a good idea to try to float the body out. Even this must be done with care. The thing is to heat some water to body temperature and drop it into the ear. I say "drop" because it should be done with a medicine dropper, not a powerful syringe, for ears have been damaged by water being forced into them by an inexperienced hand. As I say, even this "floating" of the object should not be undertaken unless a doctor isn't available, for here again special instruments will remove the offending matter with danger to the eardrum.

First American Red Cross Life Saver Greets Millionth

The water-shy American is fast becoming obsolete. It is estimated that upwards of 80,000,000 persons now go swimming and boating in this country each year, which is said to be more than the number participating in all other forms of active recreation combined.

Despite this tremendous increase in aquatic activity, the annual number of drownings has been decreased by one-third since 1914, when the Red Cross life saving service was first organized. The information and practical instruction provided by this service is largely credited with that accomplishment.

During the 12 months ending June 30 of this year, 100,361 persons received Red Cross life saving instruction, successfully passed the standard tests and were awarded life saving certificates. Since then the one-millionth Red Cross life saving certificate has been awarded, and the number continues to grow at an increasing rate.

The success of the water safety program in reducing deaths due to accident is attributed by Mr. Charles Brest, chairman of this service, to greatly increased knowledge of safety rules in swimming and boating, the widespread knowledge of methods of rescue and resuscitation, and the increasing emphasis upon prevention of water accidents. The Lawrence county chapter is holding an institute for all senior life savers and all instructors during December. Mr. Robert Zubrod,

Dormont, Clair Smith of Beaver Falls came to Gardner last Friday and went hunting with Mr. Nicklin.

On Monday night, Rev. Paul Walker, state overseer of Pennsylvania Church of God, Rev. Noble Stern and Mrs. Stern of New Bethlehem and Rev. Charles Pelton called on Gardner friends.

Mr. and Mrs. Paul Fombelle of the old Pittsburgh road had a visit from Mr. and Mrs. Stanley Davis and son Stanley of Bellevue over the week-end. Their mother, Mrs. Wesley Fombelle, went home with them.

SEVENTH WARD NEWS

Work On Streets
Near Ward Have
Been Completed

Paving Of Two Streets Connects Atlantic Avenue And Smithfield Street

Work of placing a hard surface on two streets near the Seventh Ward, Boro Line street and Sunny avenue, now connects Atlantic avenue and Smithfield street with a paved road.

The work was completed this week and the labor was all furnished by WPA and the materials by the residents along the streets. The two streets were given a good broken stone base, over which is the hard black top surface was poured.

In the past it has been a hard matter to keep these two streets in condition, for after heavy rains most of the earth on the streets would wash down to Atlantic avenue, leaving ruts and holes on the hillside streets.

The paving starts on Boro Line street, where Smithfield intersects, and down along Sunny avenue, which connects to Boro Line, to Atlantic avenue. This makes it possible to travel from the seventh ward to the West Side without traveling dirt streets.

NEWS BRIEFS IN
WARD DISTRICT

House to house canvassers for the Community Chest fund have turned in some good reports from the Seventh ward district. Anyone who has been missed should make an effort to contact one of the workers.

Members of the Young People's Chorus of the Seventh ward are meeting twice weekly now, getting ready to present a public concert during the latter part of this month.

Trips to the big woods are being made at various intervals by hunters from the district, in order that their hunting camps will be in first class condition when big game season arrives this year.

Special program is planned for Sunday morning at the Mahoning Methodist church to dedicate the newly electrified organ.

SHOULD CHANGE ADDRESS
It is quite confusing to workers in the postal department to locate persons whose mail is improperly addressed. Many of the people residing on old route 8, out of Mahoningtown, should do their part and change their addresses to route 7.

TROOP TO MEET
Boy Scouts of troop 4 will have a meeting tonight at seven o'clock in the Madison Avenue Christian church.

SEVENTH WARD PERSONALS
Vivian Gilmore, West Cherry street, is now able to be out following an illness.

Mrs. C. J. Bernhart, North Liberty street, is able to be about following an illness.

Mrs. Thomas Rainey, Darlington avenue, who has been confined to the New Castle hospital for several months, is getting along nicely.

LADIES AID SOCIETY
AT UNANGST HOME

Home of Mrs. J. W. Unangst, West Madison avenue, was the scene of a meeting of the Ladies' Aid society of the Madison Avenue Christian church Wednesday evening. Mrs. C. J. Bernhart presided.

Mrs. Carl Houk was in charge of the devotionals. Final plans were discussed for the Ladies' Aid supper, to be held in the church on November 16.

A social program followed the business meeting, and a delicious luncheon was served by Mrs. Unangst, aided by Mrs. S. F. Turk and Mrs. Earl Ruehle. Two special guests were Mrs. Phillard Unangst and Mrs. Carnahan.

Next meeting will be on Wednesday, Dec. 13, at the home of Mrs. E. A. Jones, Newell avenue.

Members of the board of elections for the second precinct of the seventh ward have a fine record for being speedy and accurate in the tabulation of their returns.

For over five years this precinct has been first to make a report to The News office of the results of the election at their poll. Martin Binder, at whose place of business the poll is located, is the oldest member of this board, and it is he who phones The News on the first report each election.

Jane Zarilla is the judge of election and the following comprise the board: Martin Binder, Elizabeth Binder, Mrs. Martin Binder, Mrs. George Binder and Mrs. Joseph Quadrelli.

Republicans Gain Undisputed Control Of State Senate

Election Of James G. Fulton
And A. Evans Kephart As-
sures GOP Majority

(International News Service)
HARRISBURG, Nov. 9.—Undisputed control of the Pennsylvania senate today passed to the Republican party with the election of GOP candidates in two special elections.

In Pittsburgh, in the 45th district, Republican James G. Fulton held a small, but apparently safe majority over his Democratic opponent, John G. Cox, in the contest to fill the vacancy caused by the resignation of P. J. Henney, a Democrat. The vote: 159 out of 276 districts—Fulton (R) 34,928; Cox (D) 29,533.

Kephart Wins
In Philadelphia, in the 2nd district, A. Evans Kephart, son of Chief Justice John W. Kephart of the supreme court, was elected to the upper chamber over his Democratic opponent, Mrs. Ada H. Lewis. The vote: Kephart, 24,770; Mrs. Lewis, 19,037. Kephart succeeds to the post vacated through the Levin-Salus election contest.

By its two victories, the Republicans assured themselves of at least numerical control of the state senate in the event a special session is called. The house is overwhelmingly Republican. In next year's regular elections, a complete new house and half of the senate will be elected.

Last year's Republican landslide gave the GOP 25 seats in the senate, one less than a constitutional majority, forcing the Republican majority to rely upon Democratic votes to pass its legislation.

LUCRATIVE POST

(International News Service)
PITTSBURGH, Nov. 9.—At a cost of \$75 a day, Francis S. Haberly, of Chicago, today was appointed by Federal Judge Nelson McVicar to determine the value of the Pittsburgh Railways company and its subsidiaries.

Two assistants—at \$35 and \$25 a day—were selected to aid the engineer. The appointment is subject to rejection if it is learned Haberly "has any personal interest" in the company being reorganized under the federal bankruptcy act, the court pointed out.

Jean Steffler has returned home

They scored!

By the same token you score or fail to a greater or lesser degree by the way you feel.

Are you alert and keen . . . is your appetite at top peak . . . do you have a full quota of red cells? OR has overwork, worry, colds and sickness caused a loss of appetite and a reduced red-blood-cell count?

That tired feeling may be a warning . . . a general run-down condition may mean a lack of normal resistance.

If you feel the need of a tonic to try the tried and tested S.S.S. Tonic to improve a lagging appetite and help change weak blood cells to strong ones . . . a very important step back to health.

Any drug store can supply and no ethical dealer will suggest a substitute.

S.S.S. Tonic

after spending two weeks with Mr. and Mrs. Carl Mickle of Zelenople.

Mr. and Mrs. R. O. Wright and son Tommy attended an insurance luncheon in Pittsburgh, Saturday.

Dorothy Branstetter, Ruth and Jean Wright of Zelenople were week-end guests of Mrs. J. C. Wright.

Mr. and Mrs. Arthur Sturgeon were dinner guests of Mr. and Mrs. Philip Wagner of Connequenessing, Sunday.

Mr. and Mrs. Herbert Sturgeon were dinner guests of Mr. and Mrs. Harvey Wagner and family of Butler, Sunday.

Mrs. E. N. Boots is spending several days with her brother, Mr. and Mrs. A. L. Brenner of the Ellwood-New Castle road.

In the states of Wisconsin, Wyoming, North Dakota, Oregon, Alabama, Connecticut and Louisiana

a prospective bride and groom must take a medical examination before they can get a marriage license.

I Thank You All

And to my loyal supporters and friends I extend my sincere appreciation and will strive to merit your confidence in me.

Rev. E. G. Russell Is Feted At Dinner

Planning To Leave For Syracuse During Latter Part Of This Week

BIBLE SCHOOL IS SPONSOR OF EVENT

Rev. and Mrs. Elmer G. Russell were feted at an attractively arranged dinner party Wednesday evening in the Reformed Presbyterian church dining room, with the Bible School Association acting as hosts, to a record crowd of congregation members, forming the gathering as a farewell tribute of friendship for the couple, who are leaving the church for another calling.

At long tables, prettily appointed with glass candelabra and choice bouquets of cut flowers, the guests were served a delicious dinner.

Kenneth Gaston, the Bible school superintendent, and Mrs. A. C. Gardner had charge, the former leading the crowd in an entertain-

ing contest. Group singing was also a feature, led by Mrs. J. D. Patterson.

Rev. Russell, a native of Bovina, N. Y., and a graduate of Geneva college, is an accomplished teacher as well as preacher, having taught in public schools, following his college career and serving in the role of principal in two public schools in Colorado. He held successful pastorates in Kansas City, Mo.; Denison, Kan.; Superior, Neb.; Syracuse, N. Y., and here in New Castle.

Mrs. Russell, a native of Blanchard, Iowa, became the wife of the pastor while he was in the Denison pastorate, having been an efficient stenographer in Kansas City. She has been the teacher of the Women's class of the past three congregations. The couple have hosts of friends in the communities where they have served.

Upon their leaving here the last of this week, they will go to Syracuse, N. Y., to visit with their son and daughter-in-law, Mr. and Mrs. Arthur Russell, and from there, after a month's visit, will go to Boston, Mass.

Featuring last night was the presentation of a handsome purse to the pastor containing money, as a token of remembrance of the high esteem of the congregation.

The committee included: Decorating, Mrs. Ella Jenkins, Mrs. J. D. Patterson, Mrs. Martha Hare and Mrs. Charles Gardner; gift, Mrs. Joseph McCaskey, Martha Dadds and Mrs. R. H. Patterson.

Industrial Roll Call Committee Has Gathering

Arrangements For Industrial Roll Call Completed At Meeting Wednesday Noon

Clyde Whittaker, chairman of the Industrial Division of the 1940 roll call, had a meeting of his committee at a luncheon, Wednesday, served by the food and nutrition instructor, Miss Lenore Taylor, assisted by Miss Regina Funk and Miss Mary Louise Pitone, of the Crawford-Oakridge N. Y. A. Center.

The following members of the committee attended: J. W. Miller, of the New Castle Refractories Co.; Robert Garland, of the Garland Manufacturers; H. J. Matiste, of Universal Sanitary Pottery Co.; S. B. Cleal, of Shenango Pottery Co.; Norman E. Clark, roll call chairman; L. J. Lewis, vice chairman of roll call; and Ralph F. Davis, chapter chairman.

The committee has taken steps to have a very thorough industrial roll call and from all advance predictions, it appears to be certain that Mr. Whittaker's group will more than make their quota.

This committee is conducting its roll call on an entirely invitational basis. A key man is selected in each industry and he in turn is responsible for securing the supplies from the chapter office and inviting the men of his industry to join.

Grove City To Try Hard Here Friday Night

Coach Joe Hartman Bringing Fast Team To Oppose "Red Hurricanes"

SEVERAL CHANGES IN STARTING LINEUP

Grove City High school football team will try hard here Friday night to upset the New Castle team. The kickoff at 8 o'clock will find in the event of good weather a big crowd in the stands. The New Castle boys hope to end their losing streak of two straight games.

The Mercer countians will have a team here tomorrow evening that is one of the best that has come out of Grove City High for quite a few years. They are most anxious to make a good showing here. All week long Coach Joe Hartman, former local star griddier has been drilling the Grovers on forward passes.

Stresses Blocking

New Castle High with two defeats in the last two games still ranking has been working hard all week to get in shape for the Grove City game. Head Coach Phil Bridenbaugh has been stressing blocking and interference this week, also brushing up on the matter of throwing and catching forward passes, which was weak in the Massillon and Monessen games.

There is quite a bit of interest in the Grove City-New Castle game, since Grove City tied Sharon and trimmed Sharpville. There are many who believe that Grove City may dump the locals. There will not be any big score you can bet on that. This Grove City High team, although not big, is fast and good at passing and blocking.

The Grove City High band of 80 pieces will come here with the team. Several hundred from Grove City will come here to see the battle. It will be the first meeting of the two teams in nine years.

Changes In Lineup

There will be several new faces in the New Castle High starting line up on Friday night, owing to injuries and sickness. Cenname is

Plays End On Titan Eleven

HAROLD PFAUF

NEW WILMINGTON, Nov. 9.—Converted this season from a half-back to an end, Harold "Hunch" Pfauf, Westminister Titan junior lineman has shown exceptional pass-grabbing ability.

Only his defensive weakness has kept the Ohio end from being a regular Titan starter. He will probably see action against the Crimson of Grove City this Saturday on the New Wilmington field.

Bears To Play Koppel Eleven

The Wabash Bears will play the Koppel eleven at the E. & A. field on Sunday afternoon at 2:30 o'clock. It was announced by the business manager of the team, Willie Domenic, today.

The Bears and the Koppel team are rivals and have been for many years. The teams did not meet last year, being unable to get together on a suitable date. The Bears trimmed the Koppel lads in 1937 and the Beaver countians want their revenge.

The Bears will be without the services of their star end, Harry Toscano, for the balance of the year. Toscano injured his knee rather severely in the game last week at Aliquippa. His place at left end will go to his cousin Chuck Toscano, a former New Castle high star. The Bears will depend a lot Sunday on the line bucking of Walter Palkovitch, their stellar fullback.

Panthers Sever Grid Relations With Duquesne

Graduate Manager Jimmy Hagan Informs Coach Buff Donelli Of Action

(International News Service) PITTSBURGH, Nov. 9.—Football rivalry between the Warriors of Pitt and Duquesne was a matter of history today, with the Panthers confirming an old rumor by severing gridiron relations with its cross-town neighbor.

The final break came at a meeting yesterday between Athletic Director Jimmy Hagan of Pitt and Coach Aldo Donelli, of Duquesne, at which time Hagan told Donelli that the Red Riders were being dropped from the Panther schedule.

With the demise of the Pitt-Duquesne series also went the annual round-robin contest for the city championship. Duquesne, however, indicated that Carnegie Tech would be on its schedule next year, as did the University of Pittsburgh. All-time record for competition between the two schools showed Pitt on the top with a four wins against two losses. Duquesne had last honors, walloping the Panthers 21-13 earlier this season.

HERE AND THERE IN SPORTS' LAND

Dom. DiMaggio, brother of Joe, has been voted the most valuable player in the Pacific Coast league, according to the Sporting News.

American university and Blue Ridge college will meet in Washington Saturday. Neither has yet won a game. One is bound to win unless the teams keep their record intact by playing a tie. Lee White plays with Erick, Okla. team. He is a guard and a stalwart of strength to his teammates. White only weighs 320. Duquesne has left for Raleigh to engage North Carolina State Saturday. Jack Wilson left-handed his way to a 10-round decision over Armando Sicilia of Chicago in Pittsburgh. Wilson recently returned from a successful tour in Australia.

Lightspur, owned by John T. March, suffered a broken ankle bone in a race Saturday at Churchill Downs and was destroyed yesterday. Lightspur won \$16,755 in two seasons. He was a three-year old, son of Blue Larkspur, and was third in the 1938 Breeder's futurity to Johnstown and Allegro.

Manie O'Hara, 4-year-old, and Baia Ormont, 3-year-old, won first and second monies in the third Lady Baltimore handicap, a mile and a sixteenth, restricted to fillies and mares, yesterday at Pimlico. Slippery Rock and Edinboro meet at Slippery Rock Saturday. According to Paul White, A. P. sports writer, Slippery Rock is "the best known little college in the country." Harold W. Pierce of Boston has been nominated for the presidency of the U. S. Golf association. Professional tennis promoters are considering making an offer of \$50,000 to Alice Marble if she turns professional.

Seek To Map Program To Defeat Grove City

NEW WILMINGTON, Nov. 9.—You don't need two guesses to determine what the Westminister college coaching staff is trying to figure out here. The answer is: how to defeat Grove City when the two district college rivals meet in New Wilmington Saturday, Nov. 11, in the annual Dad's Day game. It will be the final home game of the season for Westminister.

On the Titan board of strategy are, left to right, Assistant Coach Dave Boyd, Coach Grover C. Washbaugh and Assistant Coach Melvin Hetzler.

Last year the two teams battled to a 6-6 tie on the Crimson home field, but this year comparative scores rate the two eleven on a par in strength. Although Geneva defeated the Titans 25-0 and Grove City by only 13-7, Westminister held Slippery Rock to a 14-13 win when the best Grove City could do was to take the short end of a 13-0 score against the Rockets.

Westminster Prepares For Grove City Game

(Special To The News) NEW WILMINGTON, Nov. 9.—The Father's Day football game between Westminster and Grove City in New Wilmington Saturday, Nov. 11, promises to be the hardest-fought game on the Titans' 1939 schedule.

Battling to a 6-6 deadlock in Grove City last year these two teams have a real score to settle. Both clubs have had a comparatively bad season, counting more losses than wins; but closely matched, they should provide a football thriller.

Even with the loss through graduation of Andy Petak, popular Grover center, the Crimson team still has a well balanced team. Schlusser, Mathis, Anderson and Milner form the running combination.

DePrima, big versatile tackle for the Grovers, is the line star in addition to kicking extra points after touchdown. Nugent, Bricker, Boward, Bish, Hutchinson and Liggett complete the Grover forward wall. Statistics prove nothing concerning the relative strength of the two eleven. Geneva was held by Grove City to a 13-7 win, while the Titans were blanked 25-0 by the Genevans. But while Slippery Rock was handing a 13-0 blanking to Grove City the Titans almost tripped up the Teachers being eased out 14-13.

Look at the shape you're in...she does!

If it's a Manhattan shirt you're wearing, then your smart, trim appearance is due to the fact that Manhattan has carefully and deliberately "shaped" the shirt to fit you. The "body" is moulded to the lines of your body, the shoulders slope to your own, the sleeves taper smartly down to your wrists. There's not an inch of superfluous cloth in the entire area of a Manhattan Shirt, it took real skill in tailoring to achieve this. Shaped Manhattan Shirts are favorites with young men because of their modern streamlined styling. We have a large assortment to show you.

If you wear a larger size shirt and prefer fuller-cut proportions, Manhattan can fit you equally well.

Elsie Allowed To Show Her Knees At Football Game

University Of Nevada Campus Happy At Decision Of Dean After Banning Elsie's Knees

(International News Service)
RENO, Nev., Nov. 9.—All was joy on the University of Nevada campus today.

And on Saturday an inspired Nevada football team will meet Greeley State, determined to outclass the invaders.

Source of the inspiration was a decree issued by dean of women Margaret Mack, who capitulated to campus demands that drum major Elsie Crabtree be permitted to prance across the gridiron at half-time with her dimpled knees exposed to the gaze of all.

Last week Dean Mack shattered the calm of the campus by ordering Elsie to cease and desist her drum majoring in an abbreviated skirt. A longer skirt, suggested the dean, might be more decorous.

At first Elsie and her pals decided that Elsie should appear at the head of the band clad in long, flowing, womanly garments, but the idea of her hiding her pretty dimpled knees was too, too much for the Nevada student body as well as the good burghers of Reno.

Dean Mack, after receiving protests to that effect, sighed and capitulated to popular demands.

Elsie will show her dimpled knees Saturday.

SEES EXPORT RISE

(International News Service)

CHICAGO — Road equipment manufacturing is a "peace baby" and doesn't grow fat in war times, but U. S. factories probably will gain as a result of the present European conflict. William C. Sles, engineer-director of the American Road Builders Association, said he believed war would shut off all European export of road machinery, leaving the U. S. as the only supply source for South America and large neutral nations such as Spain.

Her Work Clothes Banned

A ruling by Dean Margaret Mack that girls' skirts must "hit the middle of the knee" drew loud protests from the University of Nevada's corps of drum majorettes. If the decree is enforced, such a treat for the eyes as Elsie Crabtree, head majorette, would become only a memory.

Nine Injured, Bus And Trailer Truck Collide

Five Are Seriously Injured, Cause Of Wreck Is Not Known, Traffic Blocked

(International News Service)
READING, Pa., Nov. 9.—Nine persons were injured, five seriously, when a Pittsburgh-bound Greyhound bus collided with a truck-trailer today on Route 22 near Shartlesville.

The injured, all of whom were brought to Reading hospital, are: Clifford Barker, 28, Laytonville, Md., driver of the truck, who received a broken jaw, fractured skull, broken arms and a broken leg; Ray M. Walshon, 35, of Harrisburg, operator of the passenger vehicle, fractured skull; Anne Murzda, 23, Youngstown, Ohio, injured leg and shock; Mrs. Mary Murzda, 20, Youngstown, O., possible fractured leg and cuts; and Dr. I. Nash, 43, a dentist of Kansas City, Mo., chest and leg injuries.

Physicians described Barker's condition as critical.

The four others injured in the crash were treated by doctors at the scene of the accident, the cause of which has not been determined. With wreckage strewn across the highway, travel over the route was blocked for more than an hour.

Titan Swimmers Plan For Season

Six-Meet Schedule Is Faced By Titan Tank Competitors

(Special To The News)

NEW WILMINGTON, Nov. 9.—Road work, calisthenics and short swims have featured the practice sessions of Westminster Titan swimmers in preparation for a difficult six-meet schedule, opening January 17, with W. and J. in the Titan tank.

Following the revived interest in swimming last year, a new coach, Joe Ferris, former Penn State swimming and cross-country varsity letterman, was appointed for 1939-40.

Beginning November 17 the Westminster tankmen will get tri-weekly practice sessions in the pool to build up wind and to keep muscles flexible.

Dick Harris, Alliquippa sophomore, backstroke veteran from last year, will report for duty at the end of the cross-country season. Other backstroke men include Fred Brinkley, Brookville junior, and Bill Hill, Turtle Creek freshman.

In the sprinting positions will be Jim Ludwig, Pittsburgh sophomore and high point man of last year, and Bill Skelly, Turtle Creek, freshman ace. For distance events, the Titans will depend on Harry Brownson, Alliquippa sophomore, and Bob Hite, Turtle Creek freshman.

Breast stroke positions will be held by Captain Art Middleton, Erie senior; Jack Getty, McKeesport sophomore, and Chal Houston, Pittsburgh freshman. Most likely to fill the diving assignments are Warren, Pollack, Turtle Creek, and John Gealy, McLebanon.

The Titan incomplete schedule is: W. and J. home, Jan. 17; Carnegie Tech, Jan. 31; Slippery Rock home, Feb. 7; Kent State, Feb. 10; Allegheny, Feb. 17 away, and W. and J. away, March 2.

still ailing, and Clazza is favoring a bad ankle.

Big John Kulnis, the boy who has been playing a whale of a game at left tackle all year and last year too, will be converted into a backfield man for the Grove City game, and will start at left-half. The backfield will be new to the big tackle, but if he is as good in the backfield and running with the ball as he is on the line, he will be a very valuable man.

"Timmy" Temenski will take the left tackle spot vacated by Kulnis. At the right half spot will be either Larry Roberts or "Jumping Joe" Gender. At full will be Lindy Lauro and at the signal barking spot will be Freddie McKee, who has had an injured hand, but it is healing nicely.

At left end will be Ben Golan and at right end will be Bucci, a newcomer replacing Zarilla.

NEW YORK, Nov. 9.—The stock market staged a quiet recovery today after an early extension of yesterday's fair-sized decline. Changes generally were small, but a few leaders advanced more than a point.

Motor shares were independently firm from the opening, duplicating their performance of yesterday.

Chrysler ran up more than a point, but General Motors' gain was limited to a fraction. Bethlehem Steel, DuPont, U. S. Rubber and Westinghouse also were up a point or more at their highs. Allied Chemical showed an extreme gain of two, but this was halved by later profit-taking.

More modest advances were made by U. S. Steel, Youngstown Sheet & Tube, Douglas Aircraft, Boeing, Standard Oil of N. J., Pennsylvania, N. Y. Central, Santa Fe, Anaconda and Montgomery Ward.

There were a few laggards, including Texas Corp., American Smelting, Consolidated Edison and North American.

Cotton added more than 50 cents a bale to yesterday's substantial gains, but most other commodities were sluggish.

On Ellwood Bridge

Judge W. Walter Braham Directs That Matter Go Before December Grand Jury

Judge W. Walter Braham of Lawrence County court, has handed down an opinion on the Ellwood City bridge repair proposition in which he holds that it will be necessary to lay the matter before the December grand jury.

The borough of Ellwood City, purchased the toll bridge over the Conemaugh Creek near the tube mill, with the understanding that the county would make necessary repairs.

In order that this might be legally done it was necessary to present a petition to court, and have the grand jury pass upon it. The grand jury, before whom it was laid, made such an indefinite report, that the court could not approve it.

In making an order to have the matter presented to the next grand jury, Judge Braham, said that he regretted the delay, but there was nothing else for him to do under the law.

If favorable action is taken by the December grand jury it will probably be next spring before any actual work can be done, since it could not be carried on during the winter.
